PROJECTS

SwiftPass ⌗
- Online Platform for buying and checking tickets.
- Tickets are shared via email and can be checked via AlphaNumeric Code or QR Code.
- Razorpay is used as Payment Gateway
- No need for user to Login
- Separate Admin accounts for checking tickets
- Project Live on: https://swift-pass.herokuapp.com/
- GitHub URL: https://github.com/BuddyLongLegs/SwiftPass
- Technologies Used: HTML, CSS, NodeJs, ExpressJS, MongoDB, Razorpay, PassportJS, Heroku

Save My Form
- One stop of location to generate custom form storage for your website.
- Users register their form and Generate a link through which submissions will be accepted.
- SaveMyForm stores and varifies submissions for the user thus allowing users to add serverless forms to their websites.
- Currently under development.
- Technologies Used: NextJS, NodeJS, ExpressJS, MySQL

WORK EXPERIENCE

GeekHaven, IIIT Allahabad   *Sept 2022 - Today Backend Developer*
- Member in Web Development Wing of GeekHaven Technical Society of Indian Institute of Information Technology
